

Want the Best TPMS Relearn Chart On the Market? This Is It!

Forget the competitor's TPMS relearn information. The **TIA Tire Pressure Monitoring System (TPMS) Relearn Chart** serves as a valuable, comprehensive, and quick reference guide that technicians can easily navigate through to service any vehicle – Foreign **AND** Domestic – equipped with TPMS.

Your organization won't want to be without one! It will save you time and money the first time you use it.

The **TIA Tire Pressure Monitoring System (TPMS) Relearn Chart** is divided into

two sections: domestic and imported vehicles. In each section, vehicles are listed by make, model, and year.

		DOMESTIC VEHICLES														Torque Specifications: Inch lbs. (N.m)						
Make	Model	Year	Relearn Required After:			Relearn Summary	Sensor Manuf.	OEM Sensor Part#	Schrader® Sensor Part#	Schrader® Service Pack#	Dill Sensor Part#	Dill Kit or Band #	NAPA® Sensor Part#	NAPA® Service Pack#	Myers Sensor Part #	Myers Kit or Band #	Orange Electronic Sensor Part #	Sensor Nut	Torx Bolt	Worm Gear	Lug Nut Ft. lbs. (N.m)	
			Change Air Pressure	Rotate	Replace Tire/ Sensor																	
Buick	Allure	2006	✓	✓	✓	GM-2															100(140)	
	Allure	2007		✓	✓	GM-6	Schrader	20158	20004		1070K	921011	920125		20004		S11013			62(7)	100(140)

The **TIA TPMS Relearn Chart** includes:

- The type of TPMS, whether direct or indirect.
- Three columns of data that indicate when a system relearn is necessary, i.e. after a change in air pressure, tire rotation, or tire/sensor replacement.
- A relearn summary – this includes a reference number that corresponds to the vehicle's procedure for initiating sensor relearn mode. The vehicle relearns are located in the back of the corresponding section, either domestic or import.
- The sensor manufacturer.
- OEM sensor part number, Schrader replacement sensor part and service pack numbers, Dill replacement sensor part and kit and band numbers, Myers Tire Supply replacement sensor part and kit and band numbers, NAPA replacement sensor part and service pack numbers, and Orange Electronics sensor numbers.
- The torque specifications for the sensor nut, torx bolt, worm gear, and lug nuts are listed.

IMPORT RELEARNS		
Increase/decrease pressure steps can be replaced by placing antennae of TPMS learn tool over the sensor and pressing the tool's activate or test button.		
MER-1 1. Inflate all tires to pressure indicated on tire placard. 2. Turn ignition to ON position (engine off). 3. Press UP/DOWN button (on left side of steering wheel) until RUN FLAT INDICATOR ACTIVE. REACTIVATION POSS. + is displayed. 4. Press + button until TIRE PRES. NOW OK? NO YES is displayed. 5. Press + button, RUN FLAT INDICATOR REACTIVATED is displayed.	POR-2 Ensure all tires are inflated to the pressure listed on the tire placard. System relearns during normal driving conditions.	TOY-3 A properly formatted scan tool is required to learn new sensor IDs when replacing sensors.
MER-2 1. Inflate all tires to pressure indicated on tire placard. 2. Turn ignition to ON position (engine off). 3. Press UP/DOWN button (on left side of steering wheel) until TIRE PRESSURE MONITOR CONNECTED REACTIVATION USING + is displayed. 4. Press + button, TIRE PRES. NOW OK? is displayed. 5. Press + button, TIRE PRESSURE MONITOR REACTIVATED is displayed.	SAB-1 Ensure all tires are inflated to the pressure listed on the tire placard. System relearns during normal driving conditions.	TOY-4 Initialization following rotation and tire replacement: 1. Inflate all tires to pressure listed on tire placard. 2. Turn ignition to ON position (engine off). 3. Hold down tire pressure reset button (located on instrument panel) until TPMS telltale flashed 3 times. 4. Initialization will be completed when ECU has received signals from all sensors. Process may take 2-3 minutes. 5. If initialization is not complete, drive vehicle for approximately 20 minutes. *A properly formatted scan tool is required to learn new sensor IDs when replacing sensors.
	SAB-2 1. Apply parking brake. Turn ignition to ON position (engine off). 2. Turn headlight switch from OFF to parking lamps 4 times within 4 seconds. A double horn chirp will sound and the TPMS telltale will begin blinking to indicate the learn mode is enabled. 3. Starting at the LF tire, increase/decrease pressure until horn sounds. 4. After horn sounds, proceed as in step 3 for the next 3 sensors in the following order: RF, RR, LR. 5. After LR sensor has been learned, turn ignition to OFF position. Adjust all tires to pressure listed on tire placard.	VW-1 1. Inflate all tires to pressure listed on tire placard.
