

TIA ONLINE UNIVERSITY

TRAINING ANYTIME, ANYWHERE!

Train Smarter with TIA Online University

From hands-on training and certification for experienced technicians, to basic online training for new hires, TIA offers programs that can be used by large and small companies alike.

BASIC 200-LEVEL COURSES

Designed for **new hires** during orientation or **experienced techs** needing documented training, each course is tailored to a specific tire category:

- **Automotive Tire Service**
- **Commercial Tire Service**
- **Earthmover Tire Service**
- **Farm Tire Service**
- **Industrial Tire Service**

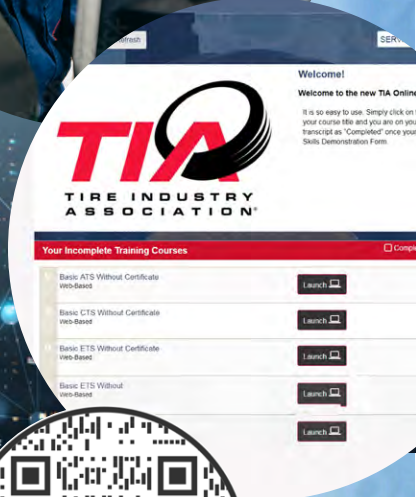

Introductory courses are also available for **sales, counter, and office staff**, keeping your entire team aligned in safety and service.

CERTIFIED 300/400 LEVEL PROGRAMS

For those ready to go further, TIA's **Certified Instructor Program** (400-Level) is the highest level of training we offer. With classroom instruction, hands-on practice, and live demonstrations, graduates are fully qualified to deliver Certified Technician Training (300-Level) in the field.

Certification is offered in **Automotive, Commercial, and Earthmover Tire Service**, with 400-Level Instructor Classes hosted nationwide each year. Having a Certified Instructor in-house means you can efficiently train your team—without relying on outside providers.

Visit TIA's Training Calendar to find upcoming classes or search the Certified Trainer Directory for an instructor near you.

*Train with TIA. Elevate your team.
Advance your career.*
